

# Student Involvement Summary

- 6.8.y.1 L0 Calo
  - No significant student involvement
- 6.8.y.2 L0 Muon
  - On project MS EE students validate and test hardware (including developing procedures)
  - Off-project students work on physics simulation
- 6.8.y.3 L1 Global Processing
  - Off-project students work on physics simulation
- 6.8.y.4 L1Track/FTK++
  - Off-project students work firmware with engineering guidance
  - Off-project students work on physics simulation

Off-project students includes undergrad, grad, and postdocs
